Dear Friends

In today's world of artificial intelligence and virtual world of computer & internet our children are missing enjoyment of playground and playground equipment's such as Swings, Slides, Merry-go-round etc. the joy of which we all have enjoyed in our childhood. To improve their physical, mental and emotional fitness for their wellbeing we have taken initiative to design and developed a wide range of Playground equipment's. Our team has a diverse experience spanning over 25 years of experience in development & manufacturing of Playground equipment's and are flexible to "customize" as per requirements of the clients. The technical strength of the team enables us to manufacture that we may not have necessarily produced earlier, but are confident in manufacturing as to customer's satisfaction. we are interested in customer's feedback to meet their expectations and all round satisfaction.

We proudly introduce our catalogue which will take you to a tour to our Play structures which will help our children for their overall development to make them a perfectly fit person for the society.

Our company specialises in range of Multiplay systems, Swings, Slides, MGR, Climbers in FRP and Rotomoulded. Our unique innovative approach not only ensures new cost effective concepts but also guarantees through quality checks and high safety standards.

Our company is committed to "Making India Healthy"
